1. Implementation

The document has been created and approved by the General Assembly of 29.11.2025.
The document and its rules will be implemented from the 2029 season (01/01/2029).
Competitors will have 3 seasons to align their equipment with this document and its rules.

2. Definition

Barbutes are a design of helmet growing extremely popular during the 15th century. They see an extensive use and evolution between approximately 1430 to 1500.

Barbutes tend to be locally used in Italy.

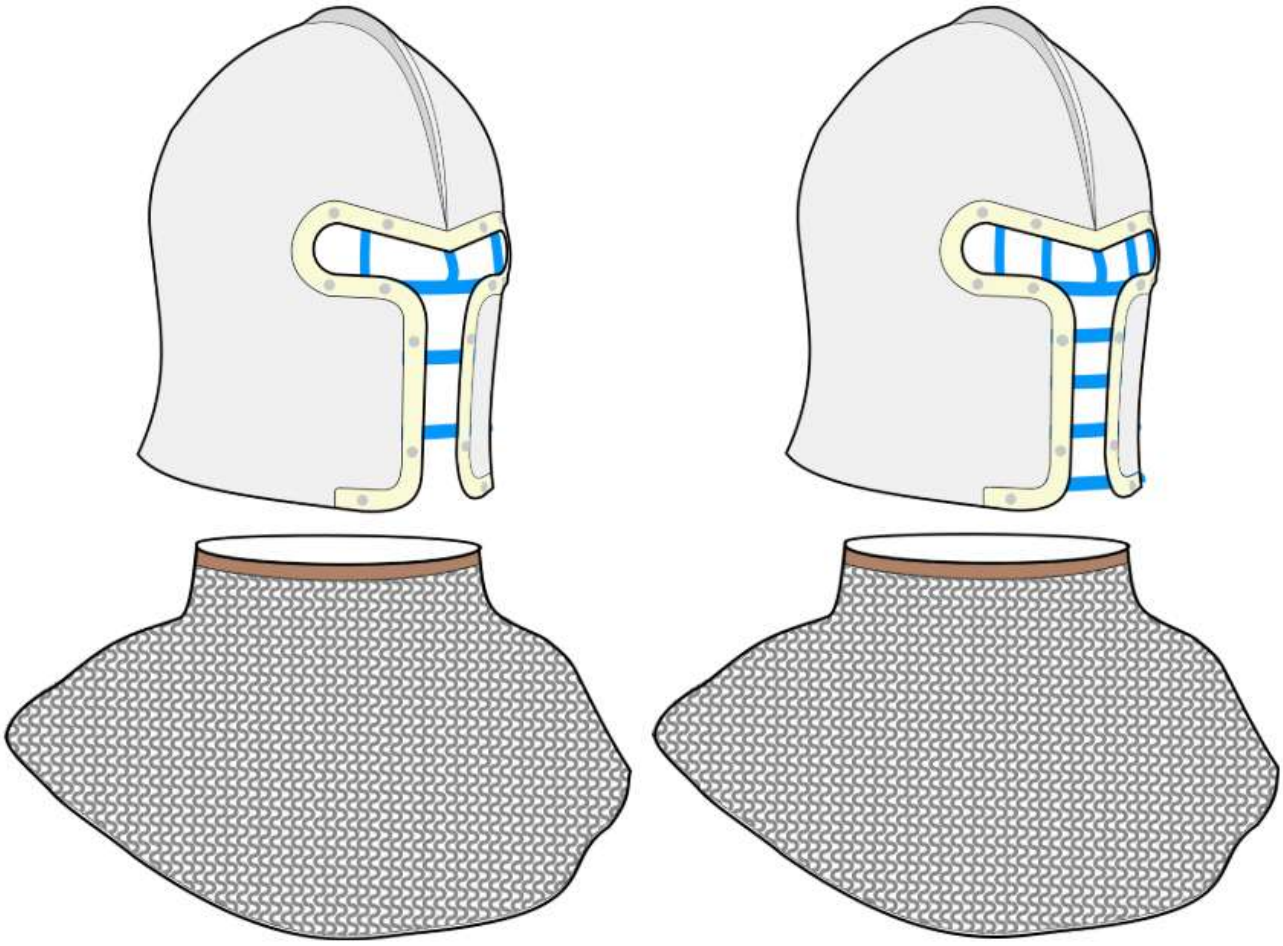

Barbutes are worn alone or with an addition of a gorget of plate or mail.

Barbutes can be of different designs: T shape or Y shape. The term “shape” refers to the opening for the eyes and mouth.

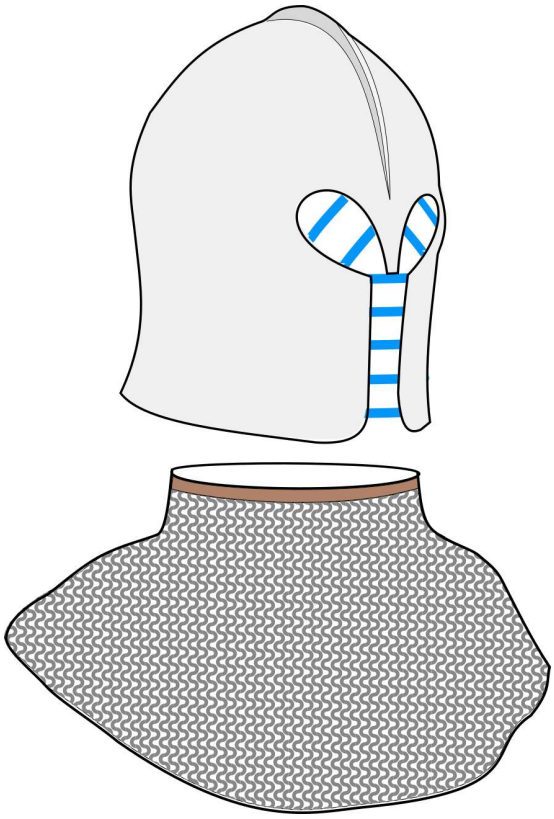

Barbutes type helmets are **Approved** for **15th century armors of matching design**.

Barbutes type helmets are **Denied** for **14th century** and **Transitional armors**.

4. Requirements

4.1. General Requirements

Reproductions must closely resemble the appearance and proportions of historical sources.

A particular attention must be paid to the crest on top of the Barbute, often forgotten by modern armorers.

Any metal part of the helmet must conform to the *"Armors and Weapons Aesthetics and Decorations"* document.

Any textile or leather part of the helmet must conform to the "*Textiles and Leather"* document.

4.2. Visor

Visors must not be too long or too short, it must respect the proportions of historical sources.

It is allowed to add a metal plate to protect the throat. Such a plate must be strong enough to endure full contact fight and must be concealed under the aventail.

4.3. Eyes and Mouth slot

Eyes and Mouth slots must resemble sources for the visor (T shape or Y shape).

Eyes and Mouth slots should not exceed 25 mm tall to prevent any injury, as a safety recommendation.

It is **Allowed** to add:

- Up to five (5) safety Eye bars: one (1) in the middle and two (2) on each side of the Eye slots,
- Up to five (5) safety Eye bars on the mouth slot,

It is allowed to use a T shaped-Eye bar at the junction of the Eye slots and the Mouth slot.

It is allowed to use slanted safety Eye bars for barbute with Y shape only.

Eye bars must be welded internally or riveted internally.

Eye bars must conform to the "*Eye bars*" document.

4.4. Gorget

Barbutes are not designed to be worn with an aventail, unlike bascinets. Barbutes are worn with a gorget.

Barbutes must be worn with a plate gorget, or a safe construction simulating a mail gorget as best as possible.

Gorget must be constructed in such a way as to protect its wearer. Mail gorget must integrate a grill of protection or additional plates.

Chainmail gorget must conform to Chainmail Aventails requirements listed in the "*Aventails*" document.

Additional neck protection can be worn according to historical sources.

Additional neck protection not based on historical sources can be worn if concealed.

4.5. Others

Barbutes may be decorated in the spirit of medieval styles, such as orle, torse, decorated collar, coat of arms badges etc.

Such decoration must be made in coherence with historical sources.

Barbutes can be covered with silk or velvet, as per historical sources. These decorations require a lot of maintenance to maintain a high level of aesthetic. Any Barbute with silk or velvet cover that is too much damaged can be denied during Authenticity Check.

Using modern and/or offensive imagery and slogans is prohibited.
