1. Implementation

The document has been created and approved by the General Assembly of 09.11.2024.
The document and its rules have been implemented since the 2025 season.

2. Definition

2.1. Importance of Aesthetics

Armors and weapons aesthetics are very important for the fighters' appearance and sports representation. The development of our sport will be easier with well-maintained and properly finished armor and weapons.

2.2. Textiles and leather

Textiles and leather are part of a knightly appearance. Tabards are made of fabric (linen, wool, silk…), coats of plates are covered with fabric, leather is mainly used for armor (helmet suspension, belts, pouches, straps), etc.
All skin of a competitor must be covered.

3. General Requirements

Textiles and Leather must:

- be based on historical sources,
- not be of a clearly modern color (I.E neon or fluorescent),
- be maintained in a good shape prior to any Buhurt International Event,
- not be decorated with modern images, offensive logos, etc.

4. Textiles

4.1. Historical Sources and Datation

The sources provide the following available materials during the Middle Ages:

- linen,
- wool,
- silk,
- coton.

Those materials are **Approved** for **14th century**, **Transitional** and **15th century armors.**

Depending on the area and time-period, other textiles fibers may be available. Any other material based on historical sources can be accepted.

Textiles were used in many applications, such as:

- tabard,
- covering a coat of plates, corazzina or brigandine,
- gambesons,
- chausses,
- helmet decoration (burlet, torse, orle, crest etc.).

4.2. Specific Requirements

Any material listed in 4.1 is **Approved**.

Any material based on historical sources thus not listed in 4.1 is **Approved**.

It is **Approved** to use a modern material under the following conditions:

- the modern material replicates the aesthetic of an approved material listed in 4.1,
- the modern material is strong enough to endure full contact fights and to not be damaged too easily.

We recommend asking for approval of the Authenticity Committee regarding modern materials before placing an order for an item made of such material.

Any clearly modern cloth element, such as underpants, sport legging, knee pad etc., must not be visible from any position.

5. Leather

5.1. Historical Sources and Datation

The sources provide a numerous amount of information about the use of leather. Leather can be decorated or not.

The use of leather is **Approved** for **14th century**, **Transitional** and **15th century armors.**

Leather was used in many applications, such as:

- covering a coat of plates, corazzina or brigandine,
- gambesons,
- helmet element (suspension system, straps etc.),
- belts,
- pouches,
- shoes,
- etc.

Reproduction of a medieval shoes - 1300/1350 - Archeologisch Museum Haarlem

Leather glove - 1450/1470 - Metropolitan Museum of Art

5.2. Specific Requirements

Any natural leather is **Approved**.

It is **Approved** to use a modern material under the following conditions:

- the modern material replicates the aesthetic of an approved material listed in 4.1,
- the modern material is strong enough to endure full contact fights and to not be damaged too easily.

We recommend asking for approval of the Authenticity Committee regarding modern materials before placing an order for an item made of such material.

Specific Requirements for boots and shoes

Boots and shoes must:

- be based on historical sources,
- be fastened by leather laces, fabric laces or any historically plausible mechanism,
- have a flat sole made of leather, or modern material.

Modern rubber soles must be flat or with very low texture.

It is **Denied** to use rubber sole to mimic hiking boots sole

Modern soles must be black or brown, with no modern flashing color.

5.5. Examples of Denied Rubber Soles

6. Changelog

Below, we will keep track of all the changes made over the lifetime of this document. This way, all our members can see how the documents are changing over time.

January - 2026 (V. 26.1)
Formatting redone for consistency and readability. Except points listed below, no content changes.
Add: “1. Implementation” (and subsequent modification of all Title numbers in the document)
Clarification:
- Split of “1. Definition and general requirements” in “2. Definition and description” and “3. General Requirements”. **This split doesn’t have an impact on the content of the rules.**

Add:
- In “2.2. Textiles and leather” : “All skin of **a competitor** must be covered.“

March-2025 (V2025.03)
- Add: 3.2: Boots and shoes must have a flat sole made of leather, or modern material
- Add: 3.3: examples of Denied and Approved shoe soles

December-2024: -Add
Document has been created
